Summary

Software Developer with a strong foundation in Java, MERN stack, and AI integrations. Passionate about building scalable backend systems, interactive web applications, and implementing smart AI solutions to solve real-world problems.

Education

B.Tech. Computer Science and Engineering	2023 – Ongoing
Invertis University, Bareilly, Uttar Pradesh	CGPA: 7.2 / 10

Skills

- **Languages:** Java, Python, JavaScript, SQL
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS
- **Backend & DB:** Node.js, Express.js, MongoDB, PostgreSQL
- **AI & Tools:** Git, GitHub, REST APIs, OpenAI API, Basic Machine Learning concepts

Projects

ProManage - Team Collaboration Tool <i>MongoDB, Express, React, Node.js</i>	Jan 2025
--	----------

- Built a full-stack project management application allowing teams to create tasks, assign roles, and track progress.
- Implemented secure user authentication using JWT and optimized database queries for fast loading times.

SmartSummarizer - AI Document Assistant <i>Python, NLP, Flask</i>	Nov 2024
--	----------

- Developed an AI-powered web tool that processes long text documents and generates concise, accurate summaries.
- Integrated OpenAI APIs for natural language processing and built a clean backend architecture using Flask.

Bank Management System <i>Java, OOPs, MySQL, JDBC</i>	Aug 2024
--	----------

- Created a robust desktop application for managing user accounts, transactions, and secure login operations.
- Applied core Object-Oriented Programming principles and connected to a MySQL database using JDBC for data persistence.

Awards & Certifications

- Full Stack Web Development Certification
- Core Java Programming Mastery
- Introduction to Artificial Intelligence & Machine Learning
